

Quick Start Guide - Recurring Investments Feature

Getting Started in 5 Minutes

Step 1: Setup Database with Demo Data

```
cd /home/ubuntu/finplanner/app

# Reset database and seed with demo data
npx prisma db push --force-reset
npx prisma db seed

# Start the development server
npm run dev
```

Step 2: Login

- **URL:** http://localhost:3000
- **Email:** demo@finplanner.com
- **Password:** password123

Step 3: Explore the Features

View Recurring SIPs

1. Navigate to **Investments** tab
2. Click **"Recurring SIPs"** tab
3. See 5 demo SIPs with different types and frequencies

What to Check:

- ✓ Summary cards show correct totals
- ✓ Table displays all SIP details
- ✓ Status badges are color-coded
- ✓ Actions buttons (Pause/Resume, Delete) are present

Create a New SIP

1. Click **"Start SIP"** button (emerald, top-right)
2. Fill in the form:
 - **Name:** "Test SIP Fund"
 - **Type:** "Mutual Fund SIP"
 - **Platform:** "Groww"
 - **Amount:** 3000
 - **Frequency:** "Monthly"
 - **Unit Price:** 100
 - **Start Date:** Today's date
3. Click **"Create Recurring Investment"**

Expected Result:

- ✓ Success message appears
- ✓ "Bill auto-generated" notification shows

- ✓ New SIP appears in table
- ✓ Units auto-calculated (30 units)

View SIP Bills

1. Navigate to **Bills** tab
2. Click **“SIP Bills Only”** button
3. View only investment-linked bills

What to Check:

- ✓ 5 SIP bills visible
- ✓ All show “Investment” category
- ✓ Amounts match SIP amounts
- ✓ Next due dates are shown

Pay a SIP Bill

1. In Bills tab, switch to **“Monthly View”**
2. Select **January 2026**
3. Find **“Kotak Equity Opportunities Fund - SIP”** (due Jan 15)
4. Click **“Mark Paid”**
5. Enter:
 - Amount: 7500
 - Reference: UPI-TEST
 - Enable “Create Transaction”
6. Click **“Mark as Paid”**

Expected Result:

- ✓ Bill marked as paid
- ✓ Success toast appears
- ✓ Go to Investments → Recurring SIPs tab
- ✓ Kotak fund units should increase
- ✓ Current value should increase by ₹7500

Dashboard Metric

1. Navigate to **Dashboard**
2. Find **“Upcoming SIPs”** card (top row)

What to Check:

- ✓ Shows count of upcoming SIPs
- ✓ Shows total amount due
- ✓ Clicking “View SIP bills” → Bills tab with filter

Pause a SIP

1. Go to Investments → Recurring SIPs
2. Click **Pause** button on any SIP
3. Observe status change to **“PAUSED”**
4. Click **Play** button to resume

Expected Result:

- ✓ Status toggles correctly
 - ✓ Toast notifications appear
-

Demo Data Included

The seed script creates:

SIP Name	Type	Amount	Frequency	Units	Current Value
SBI Bluechip Fund	Mutual Fund	₹5,000	Monthly	33.33	₹5,165
ICICI Prudential Equity	ELSS	₹10,000	Monthly	66.67	₹10,533
HDFC Bank RD	RD	₹1,000	Monthly	3,000	₹3,000
Axis Long Term Equity	ELSS	₹20,000	Quarterly	133.33	₹21,333
Kotak Equity Fund	Mutual Fund	₹7,500	Monthly	50	₹7,600

Total Monthly Investment: ₹23,500

Total Portfolio Value: ₹47,631

Key Features to Test

Feature Checklist

- ☐ View all SIPs in Recurring SIPs tab
- ☐ Create a new SIP
- ☐ View auto-generated bill
- ☐ Filter SIP bills in Bills tab
- ☐ Mark SIP bill as paid
- ☐ Verify investment units updated
- ☐ Check dashboard metric
- ☐ Pause a SIP
- ☐ Resume a SIP
- ☐ Delete a SIP
- ☐ View summary metrics

What to Look For

UI/UX

- ✓ Emerald color scheme for SIP actions

- ✓ Consistent styling with existing components
- ✓ Responsive design on mobile/tablet
- ✓ Smooth animations and transitions
- ✓ Clear status indicators

Functionality

- ✓ Auto-calculation of units from amount/price
- ✓ Bills auto-created on SIP creation
- ✓ Investment updates on bill payment
- ✓ Filter works across all bill views
- ✓ Status changes persist

Data Integrity

- ✓ Units calculation is accurate
- ✓ Values update correctly
- ✓ Average price recalculates
- ✓ Next due dates roll forward
- ✓ Transaction creation optional

Common Issues & Solutions

Issue: Bills don't show in SIP filter

Check:

1. Bill has `linkedInvestmentId` set
2. Filter button is clicked (emerald = active)
3. Browser console for errors

Issue: Units not updating on payment

Check:

1. Investment has `currentPrice` or `averagePrice` > 0
2. Payment completes without errors
3. API response shows updated values

Issue: Dashboard metric shows 0

Check:

1. Bills have `nextDueDate` within next 30 days
2. Bills are `isActive = true`
3. At least one bill has `linkedInvestmentId`

Mobile Testing

Test on different screen sizes:

- **Desktop** (1920x1080): All features visible
- **Tablet** (768x1024): Responsive grid layouts

- **Mobile** (375x667): Stacked layouts, drawer menus

Testing Workflow

Complete Test Path (15 minutes)

1. **Login** (1 min)
2. **View Demo SIPs** (2 min)
3. **Create New SIP** (3 min)
4. **View Dashboard Metric** (1 min)
5. **Filter Bills** (2 min)
6. **Pay a Bill** (3 min)
7. **Verify Investment Update** (2 min)
8. **Pause/Resume SIP** (1 min)

Expected Test Results

After following this guide, you should have:

- ✓ 6 total SIPs (5 demo + 1 created)
- ✓ 6 SIP bills in Bills tab
- ✓ 1 paid SIP bill (Kotak fund)
- ✓ Updated investment with increased units
- ✓ Dashboard showing correct upcoming SIPs
- ✓ At least 1 paused SIP

Need Help?

Refer to the comprehensive documentation:

- **Full Documentation:** `/home/ubuntu/finplanner/RECURRING_INVESTMENTS_FEATURE.md`
- **API Reference:** See Section 13 in full docs
- **Troubleshooting:** See Section 12 in full docs

Success Criteria

Your implementation is working correctly if:

1.  All demo SIPs load without errors
2.  New SIP creation works end-to-end
3.  Bills are auto-generated
4.  Payment updates investment correctly
5.  Dashboard metric is accurate
6.  Filter works in all bill views

7. ☒ Status management (Pause/Resume) works
 8. ☒ UI matches existing design patterns
-

Happy Testing! 🚀
